Summary

Full-Stack Developer who designs and ships production e-commerce end to end. Solo-architected and deployed a B2B platform on Next.js, TypeScript, and MongoDB that now serves 50+ retail partners, alongside Shopify D2C storefronts and the marketing behind them. Owning both the design and the build means projects ship without the usual designer-to-developer handoff.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js 14, Tailwind CSS, Responsive Design

Backend & Data: Node.js, Express.js, MongoDB, RESTful APIs, Google Sheets API, PDF Generation

E-commerce & Growth: Shopify (Liquid), SEO, Social Media Marketing, Meta Ads

Design & Tools: Figma, Adobe XD, Git, Adobe Creative Suite, AI-assisted Workflows

Professional Experience

Full-Stack Developer & UI/UX Designer

Jan 2025 – Present

Aravalli Designs, Jaipur, India

- Shipped and maintain a production B2B e-commerce platform (Ethnics by Aravalli) now serving 50+ retail partners, architected solo on Next.js 14, TypeScript, and MongoDB with real-time inventory
- Removed nearly all manual order paperwork by building an automated invoicing pipeline on the Google Sheets API, cutting order-processing time from most of an afternoon to minutes
- Grew the Ekohum D2C brand end to end — designing and building its Shopify (Liquid) storefront and running the social-media marketing that lifted its engagement and following
- Made the storefront noticeably faster and fully mobile-responsive through code-splitting, lazy loading, and image optimisation, and improved organic reach with on-site SEO and structured data

Full-Stack Development — Self-Directed Study

Jan 2023 – Jan 2025

Independent, Jaipur, India

- Transitioned from design into full-stack engineering through focused self-study — earning Mimo Professional Certificates and building a portfolio of deployed React/Next.js applications that led directly into the Aravalli Designs role

UI/UX Designer

2022 – 2023

TSSS Infotech and Infra, Hyderabad, India

- Grew web traffic and qualified leads substantially by designing a real estate platform's information architecture and user flows
- Lifted engagement and conversion by redesigning key interfaces from analytics and A/B testing
- Mentored 3 junior designers, tightening the team's ramp-up and delivery

Graphic Designer

2020 – 2022

TSSS Infotech and Infra, Hyderabad, India

- Strengthened brand consistency and customer engagement across client projects through a unified visual system
- Sped up delivery by establishing reusable component and asset libraries

Technical Projects

Ethnics by Aravalli – Custom full-stack B2B e-commerce platform for 50+ retailers with automated order processing, inventory management, and PDF invoicing. Built with Next.js 14, TypeScript, MongoDB, and the Google Sheets API.

Ekohum – Shopify (Liquid) D2C ethnic-wear brand — storefront design and build plus the social-media marketing that grew its engagement and following.

TSSS Real Estate Platform [\[Live\]](#) – Full-stack real estate website with property listings, search, and lead generation; grew traffic and leads substantially.

LedgerAI – AI-assisted expense, GST, and cash-flow tracker for Indian small businesses. Built with Next.js, TypeScript, MongoDB, and the OpenAI API.

Education

Bachelor of Science in Media Technology

2018 – 2021

ICAT Design and Media College

Certifications & Awards

Mimo Professional Certificates (verifiable): [Full-Stack Development](#) | [Front-End](#) | [Back-End](#) | [Python Development](#)

1st Prize — Indywood Poster Design Competition (ICAT)
